

Abby Jones – NEA RA Delegate

Statement:

In 2014, I took over as building rep when my colleague's daughter was diagnosed with cancer and I stepped in to help her out. Since that moment, I have continued to get more involved and have found an undiscovered love for this work. This past year I stepped up again by taking on a leadership position on the Executive Board as one of the Elementary Reps at Large.

Every conference I get to attend recharges my drive to work harder for our schools. My passion for this position comes from my respect for what we do as educators.
